

**FREEDOMFX**  
AUTOMATED FINANCIAL TRADING SOFTWARE

# WHAT EXACTLY IS FREEDOM FX?

FreedomFX provides you with the exact same trades used by a multi-million-dollar hedge fund trader through a laptop that you control.

Just connect to the internet and you're set.

We've been begging for years to access our friend's trading system and he's FINALLY letting us mirror the EXACT trades he uses when he's trading full-time for a hedge fund. We've set up an API integration (not AI) that will mirror the exact trades he makes and places the same ones inside of your Forex account. It's pretty amazing.

Our team has created a revolutionary, trade mirroring system that runs on your account and when our hedge fund trader places trades for his hedge fund, those same exact trades go directly into your account. Our proprietary system adjusts the trade size automatically based on your account size to scale it perfectly to your account. So whether you have \$5,000 in your account or \$5,000,000.

The trades are placed perfectly based on your specific account size.

# HOW DOES IT WORK?

**Our revolutionary software system mirrors the activity of a seasoned hedge fund trader and focuses on performing dozens of trades per month.**

His trading style is the safest and most effective strategy designed to provide the highest rate of return with an incredibly low risk tolerance. Our software is set up to never be tampered with and can be adjusted to increase risk and reward but, we advise on taking the safer, proven path for maximum results and absolutely minimal risk.

1

## Book a Call + Set Up Your Software License

Book a call with our team to initialize your access and get your laptop shipped to your front door. Once it arrives, we'll guide you through setup and turn on the program.

2

## Set Up Your Forex Brokerage Account

Watch our training videos about setting up your first (or next) Forex Trading Account. Once you're set up and funded, we'll guide you through the process of licensing our software.

3

## Connect Our API & Start Printing Money

Next, we'll connect your credentials and run the program so you can start getting trades. This is where you can sit back, relax and let the program run on auto-pilot.

# MEET THE TEAM

With 40+ years of combined experience in entrepreneurship, marketing, forex and finance, we've assembled the dream team to make your financial dreams come true, without risk.

Dan's trading style is the safest and most effective strategy designed to provide the highest rate of return with an incredibly low risk tolerance. Our software is set up to never be tampered with and can be adjusted to increase risk and reward but, we advise on taking the safer, proven path for maximum results and absolutely minimal risk.

**BRENNAN  
BAART**

**DAN  
NGUYEN**

**CHRIS  
CROMWELL**

# STABILITY & SAFETY

Dan has not only passed rigorous testing to manage funds for a hedge fund, but over the years has developed nerves of steel to safely and consistently come out ahead.

This qualification positions Dan as a credible and experienced trader, capable of delivering results even in highly volatile financial markets.

This rigorous FTMO Challenges informs an evaluation process (which is designed to assess a trader's ability to manage risk and consistently generate profits) showcases Daniel's commitment to high-level trading practices.

His ability to meet profit targets while maintaining strict loss limits highlights his strong risk management strategies and advanced trading skills.

The certificates awarded to Daniel confirm his proficiency in Forex trading and his ability to perform under pressure. By passing all trading objectives, he has proven his mastery in money management and his ability to execute strategies that are both profitable and sustainable.
